

Example: Treatment vs Control (Small n)

Success

F a i l u r e

- - - - -

Treatment

4

1

Control

1

4

- Compute exact two-tailed p-value ≈ 0.047 .
- $OR = (4 \cdot 4) / (1 \cdot 1) = 16$.
- Conclusion: association significant at $\alpha = 0.05$.
