

Example: 3 Predictors

$p=3$, $n=40$, $SS_{reg}=250$, $SS_{error}=150$.

- $MS_{reg} = 250/3=83.3$; $MS_{error}=150/36=4.17 \Rightarrow F \approx 20 >$

$F_{\{0.05, 3, 36\}} \Rightarrow \text{reject } H_0.$
